www.profiwelders.com

Hello,

I am an owner and executive director of Profi Steel and Profi Welders companies.

Profi Steel executes contracts for works and Profi Welders is an agency providing qualified staff for our own projects in Slovakia but also collaborates with many European companies interested in leasing of qualified staff.

During the years of implementation of our projects, I have found it necessary to have a company that would focus only on staff recruitment, since you can be successful with a project only if you have enough qualified workers in the right time, and the volume of your orders depends only on your ability to allocate the necessary qualified staff within a short time.

I exactly understand the needs and issues of the qualified staff. Therefore, I have built a functional system and a team of experts who communicate daily with tens of workers, verify their skills, so we have knowledge and personal experience with each and every of these workers.

The sophisticated system and experience, that is what makes us different from others. Our big advantage is that we technically understand the issue and that predetermines us for a high quality preparation of the requested staff. Our references tell the story. All over Europe, we collaborate with more than 40 companies and the number exceeds 300,000 leased hours per year.

I believe that if you are challenged with a lack of technical staff, we are the right partner to cooperate with you.

Radoslav Frtús

- Wernsing, Essen (DE)
- Miavit, Essen (DE)
- Kärtnermilch, Spittal an der Drau (AT)
- MILEI, Leutkirch im Allgäu (DE)
- MALKO, Obervellach (AT)

COUNTRIES WHERE WE OPERATE

- Austria (AUG license)
- Germany (AUG license)
- Finland
- Sweden
- Netherlands
- Czechia
- Slovakia (PL license)

EXPERIENCE OF OUR WORKERS

- Installations, assembly, disassembly, reconstruction of boilers
- Assembly and welding of high-pressure and low-pressure piping in power engineering (CS, SS)
- Assembly and welding of stainless steel piping and stations in pharmaceutical industry
- Orbital welding
- Assembly and welding of stainless piping and tanks in food industry
- Outage works in power plants and refineries
- Installation and welding of bridges
- Pre-assembly works in client's manufacturing facilities in any industry
- Assembly and welding of steel structures

DISCIPLINES ARRANGED BY US

- Welder (141,142, 135, 136, 111)
- Pipe fitter
- Locksmith
- Quality Manager – NDT Technician
- Quality Control worker, Supervisor

FIELDS WHERE WE LEASE STAFF

- Power engineering (nuclear, thermal)
- Petrochemistry
- Pharmaceutical industry
- Food industry
- Engineering industry

WHAT DO WE GUARANTEE

- Assurance of qualified staff based on specific client's requirements
- Testing of staff in our specialised training centre before travelling to the destination
- Equipping of workers with tools related to the field of industry
- Assurance of all necessary legislative documents before arrival to the site

HOW DO WE DIFFER

- Technically skilled management in all areas where we lease staff
- Selection of certified, verified and experienced staff
- Selection, training and testing of the staff is done by professionals long experienced in the given field
- Own welding school
- Own training centre for pipe fitters with possibility to test assembly and disassembly of flange connections
- Possibility of retraining and testing of orbital welding

WHAT WILL YOU GET FROM COLLABORATION WITH US

- Technical knowledge of the field
- Individual approach to client's requirements
- Fast response to client's inquiries
- Tailored price quotation and commercial terms
- Short time for staff arrangement

Profi Welders, s.r.o., certified personnel agency specialised in staff leasing in technical disciplines.
